There are few cars with the capabilities of the Chimaera. There are even fewer that embody this with such devastating style and exclusivity.

The TVR Chimaera revives the virtues of the Grand Tourer - the ability to consume long distance journeys in sumptuous comfort with powerful ease. Coupled with its lightweight and race bred chassis, it is both agile and tenacious.

The beautifully sculptured exterior belies the Chimaera's racing heritage and the performance potential. The potent and efficient V8 engine yields a silky and impressive amount of torque and power that is engineered to peak at lower engine speeds, making overtaking swift and safe.

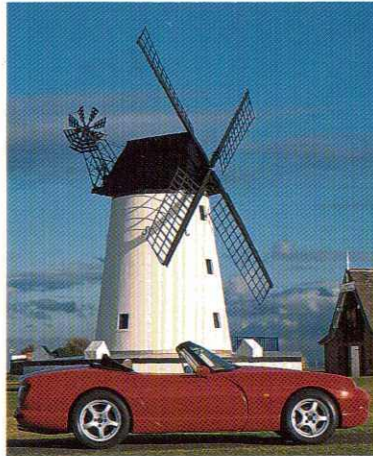

Despite these sporting attributes, the Chimaera is not a compromise, the cavernous boot accommodates luggage with ample sufficiency, while the ingenious roof system retracts to reveal a full open convertible.

The lavish interior cossets it's occupants with all the accoutrements associated with a bespoke British sports car. Leather and walnut abound within the custom made cockpit that offers more room than any other car in it's class.

The Chimaera captures all that is British, a tourer of true pedigree.
